

Civil Engineering Technician

As an urban regeneration specialist, Envivo is a multi-discipline consultancy that provides market leading professional services in Engineering, Surveying and Planning to a wide range of land development, construction and institutional clients.

Our civil engineering team works with clients focused on land development and also has a special niche in public spaces.

Responsibilities

- Use CAD, modelling and calculation/analysis tools to perform technical functions
- Prepare technical consents for submission to councils
- Prepare engineering reports and applications on behalf of clients for engineering approval to council
- Prepare detailed and construction designs and documentation for construction and implementation of projects
- Prepare engineering reports, contract documentation and technical details
- Work within agreed timeframes, project specifications and set budgets
- Liaise with clients, consultant team, design team, council officers and contractors
- Site inspections and survey work when appropriate
- Working with relevant standards and legislation

Skills/Experience Required

- Related diploma or degree qualification or equivalent
- Knowledge of NZ Standards
- Experience in civil engineering related disciplines from concept to post-construction stages
- Land development and engineering design experience in three waters, earthworks, flood/flow paths and roading
- High proficiency with AutoCAD Civil 3D
- Professional and confident interaction with clients and staff
- Committed to delivering high standards of professional engineering excellence
- Excellent verbal and written communication skills
- Able to remain calm under pressure with flexibility to meet changing demands

Envivo values people who enjoy working collaboratively in a team environment. We have a commitment to career development, a focus on professional standards and on achieving successful outcomes for our clients.

You must be eligible to work in NZ to apply for this role.
