

Survey CAD Technician

- Innovative professional consultancy forging a reputation for unique spatial solutions
- Work with a friendly and professional team
- A range of projects including subdivision and land development

As an urban regeneration specialist, Envivo is a multi-discipline consultancy that provides market leading professional services in Engineering, Surveying and Planning to a wide range of land development, construction and institutional clients.

Our Surveyors have been involved in numerous subdivision and land development projects and ensured our clients' success by providing comprehensive surveying services and sound advice. We have a reputation for producing industry-leading plans and digital information.

Responsibilities

- Efficiently plan and prepare CAD drawings using Civil 3D for a broad range of cadastral projects including topographic surveys, boundary surveys, subdivisions and as-built surveys
- Receive field data and process into working drawings
- Complete information searches
- Prepare digital terrain models and contouring
- Work closely with surveyors and engineers to ensure a coordinated design

Skills/Experience Required

- 3 years minimum related experience
- Strong proficiency in survey related AutoCAD or Civil 3D
- Strong attention to detail
- Quick and efficient time management and completion of work
- Professional and confident interaction with clients and staff
- Excellent verbal and written communication skills
- Able to remain calm under pressure with flexibility to meet changing demands

Envivo values people who enjoy working collaboratively in a team environment. We have a focus on professional standards and on achieving successful outcomes for our clients.
